**Announcement of the offer of the fifth Macau fund “Macau Dream”**

United World Securities Japan K.K. (HQ: Tokyo, Minato-ward, Akasaka, CEO: Toshiyuki Tateishi), an online Chinese stock brokerage, is pleased to announce the launch of the “UW Macau Project 5 (also known as the Macau Dream)”, which is the fifth of our Macau funds, following on from four predecessors that each acquired a favourable reputation. The schedule is as below:

Offer period: April 4, 2007 (Wed) to May 17, 2007 (Thurs)

Due date for funds: May 18, 2007 (Thurs)

The “Macau Dream” fund aims to benefit from the development of the Macau Special Administrative Region (a regional development of mainly casino towns and etc) and the economic growth of Macau.

Macau currently has huge ongoing developments of casino entertainment resorts. With Galaxy StarWorld and a Las Vegas style casino resort, and the Wynn Macau that opened in September 2006, Macau now makes more income from the casino business than the original Las Vegas does and receives over 20 million tourists per year. Moreover, the Grand Lisboa opened in February 2007 and more openings are scheduled in the near future such as the Crown Macau in May and the MGM Grand and The Venetian Macau this coming autumn. With expectations of rapid employment expansion due to the newly opened large-scale hotels and a dramatic influx of population, foreign investment has been flowing into Macau not only from Hong Kong and the Chinese mainland, but also from other countries. The “Macau Dream 5” mainly focuses on investments in Macau real estate the value of which is expected to soar due to this large-scale regional development and the fund also features stock investment in companies involved in the development project.

With a purchase unit of JPY100,000, small-scale investment is conveniently available via the Internet. We will hold a “Macau Dream” fund seminar for individual investors at 10:00am April 21 (Sat) at Otemachi Sankei Plaza in Tokyo.
